Can we also have a scientific study on how covid is not transmitted from person to person in a large crowd as long as that crown is protesting a liberal hot topic. That one puzzles me. Go to the grocery store, you risk death, protest in crowded streets, no problemo. wth

The coordination began way back at the start of Obama's first 4 years when he announced publically that he was going to start building an armed civil military forced within the US that would be stronger than the US military (think fear & burning cities today). HellooooO?

It is dangerous to give room to murmuring and complaining. Every time you murmur you invite the destroyer! Everything you murmur about never grows; rather, it diminishes!

A lot of what people call 'conspiracy theories' are simply facts that most people are unaware of, or in denial of.

If you are months or years ahead of the mainstream 'news', they will call you a 'conspiracy theorist'.

And even once proven correct, they will act like you weren't

Not taking a vaccine when you already have immunity has been a norm in science for a long time. I get that you worship at the altar of Fauci and the CDC who are making it all up as they go along but there's more science to back up Dr. Paul's view than there is to back your view.

Humans have a natural survival instinct. Virtually all will do what they conclude best serves their survival. The Federal Government should merely provide the data the public can use to make a personal decision re risk vs benefits of the experimental vaccines

1 day after this tweet Rand Paul received an envelope with white powder in it, a note saying "I'll finish what your neighbor started" and a fake photo of Rand beaten up with a gun to his head. Twitter bans Republican grandmas for ridiculous reasons yet still leaves this tweet up.

Not taking a vaccine when you already have immunity has been a norm in science for a long time. I get that you worship at the altar of Fauci and the CDC who are making it all up as they go along but there's more science to back up Dr. Paul's view than there is to back your view.

> Yeah, Robby. I'm the only person on Twitter who's ever referenced Rand Paul's neighbor. Must have been me. This was also a day after that traitor made a public showing of refusing the vaccine. Also, you're a grown man still using "Robby" so I'm not surprised you're an idiot

So their contract was not to complete the project ???
They had a time frame and they only got 25% done
Then they walk away from the project and say "Done"
As a builder of 30yrs. I find that absolutely hilarious
Fann says "they're finished, don't need to be here"
What a joke.

DOGE Boy @...mmyWoods1957 1m

Think of the bigger picture here, you split the audit into 4 phases and have a different, independent company lead each phase, that provides you with 4 independent reports rather than 1. The reports are likely to confirm very similar findings. It's a good strategy.

Marjorie Taylor Greene has been sticking up for the Israeli people... What in the blue hell are you talking about...

She's absolutely right that the control you are seeing is exactly how things started in 1930's Germany...

Anyone who can't see this, is a buffoon..

Marjorie Taylor Greene has been sticking up for the Israeli people... What in the blue hell are you talking about...

She's absolutely right that the control you are seeing is exactly how things started in 1930's Germany...

Anyone who can't see this, is a buffoon..

So their contract was not to complete the project ???
They had a time frame and they only got 25% done
Then they walk away from the project and say "Done"
As a builder of 30yrs. I find that absolutely hilarious
Fann says "they're finished, don't need to be here"
What a joke.

1

DOGE Boy @...mmyWoods1957 1m
Think of the bigger picture here, you split the audit into 4 phases and have a different, independent company lead each phase, that provides you with 4 independent reports rather than 1. The reports are likely to confirm very similar findings. It's a good strategy.

I think they died for something more basic, more fundamental. Do we have a right to exist? Is this constitutional republic worth defending? They died fighting England and Japan and Mexico. The mask issue should be obvious.

"The vaccinated" are the group largely being referenced and not "the immune" (which would include Covid-19 recovered, who have superior immunity).

That tells you that fear and control are driving the narrative

Jesus was very political as were all of the Apostles... What a misconception and horrific view to tell the Pastors to stay out of politics..

This attitude is why America is upside down and has lost it's way. Stop being COWARDS Church!

We need pastors who are UNAFRAID!

The only way to solve problems & end disagreements is to analyze the truth openly for all to see.

So why do the Democrats, media, and Republican establishment fight full transparent election audits?

And why aren't we all together investigating the origins and funding of covid?

For we all together have suffered the past year, along with the entire world from covid, we all together should be investigating how it happened and who payed for it in order to never allow it to happen again.

This is for the good of everyone.

Cont'd.

And if we all are ever going to trust our elections & come together as Americans, then everyone should be in agreement to allow for full transparent audits of the elections in states that are in question.

The Democrats have hated the police for decades...

They'e been pushing to defund them, have them jailed for doing their jobs, tried them for murder for doing their jobs, all because they cater to the race card and the feelings crowd..

But one day in January.. "We love police"

The only way we will make progress is a coalition of the politically homeless.

Relying on the Republicans/conservatives for anything is a waste of energy. They want to lose. They only drag down the effort.

Law and Order does not mean instant willing obedience to all laws whether constitutional or not. Any law that violates the constitution, law enforcement officers have a duty not to enforce and citizens have duty to oppose. Such a law is a transgression against the citizenry.

Okay schools have K-5 grades 6-8 grades then 9-12th why cant we do 1/2 days for this? Rest of day online. With 2hrs to clean in between using all of the class rooms so the kids can be 6ft apart wearing mask? Children need to be around each other

Anyone else tired of the Hospitality industry charging full price but offering none of the amenities they used to...

It's okay to be understaffed, we get what's happening.. It's not okay to charge normal rates and over promise and under deliver..

Just experienced that at a Best Western. Charged full price for a room but did not offer room refresh or hot breakfast. The pool was open but had so much chlorine in it would burn your skin. Asked for extra towels & they were brought up & set on the carpet in front of the door

How much PPP money did these National Hotel chains receive to not care about opening, service, etc.. They are charging full price, and giving ZERO amenities..

Anyone else tired of the Hospitality industry charging full price but offering none of the amenities they used to...

It's okay to be understaffed, we get what's happening.. It's not okay to charge normal rates and over promise and under deliver..

At the very minimum, this shows lab leak (or worse) was taken exceedingly seriously and was never a "conspiracy theory."

At the maximum, it opens up questions of an unprecedented global cover up.

Either way establishment politicians and corporate media look worse than ever.

From: Kristian G. Andersen [redacted]>
Sent: Friday, January 31, 2020 10:32 PM
To: Fauci, Anthony (NIH/NIAID) [redacted]
Cc: Jeremy Farrar [redacted]>
Subject: Re: FW: Science: Mining coronavirus genomes for clues to the outbreak's origins

Hi Tony,

Thanks for sharing. Yes, I saw this earlier today and both Eddie and myself are actually quoted in it. It's a great article, but the problem is that our phylogenetic analyses aren't able to answer whether the sequences are unusual at individual residues, except if they are completely off. On a phylogenetic tree the virus looks totally normal and the close clustering with bats suggest that bats serve as the reservoir. The unusual features of the virus make up a really small part of the genome (<0.1%) so one has to look really closely at all the sequences to see that some of the features (potentially) look engineered.

We have a good team lined up to look very critically at this, so we should know much more at the end of the weekend. I should mention that after discussions earlier today, Eddie, Bob, Mike, and myself all find the genome inconsistent with expectations from evolutionary theory. But we have to look at this much more closely and there are still further analyses to be done, so those opinions could still change.

White supremacy on a systemic level does not exist in the United States. Of the insignificant number of white supremacists that do exist, most are relegated to message boards. They have no institutional power. America is the most tolerant and welcoming nation on earth.

Looks like Lord Fauci's about to have a lot of hearings coming up. RT @TrackingCovid: "The typical mask you buy at the drugstore is not really effective in keep out virus"

Read the fraudster Fauci's emails here,

documentcloud.org/documents/2079 …

From: Fauci, Anthony (NIH/NIAID) [E]
Sent: Wed, 5 Feb 2020 03:48:11 +0000
To: Sylvia Burwell
Subject: RE: A couple of quick questions

Sylvia,

Masks are really for infected people to prevent them from spreading infection to people who are not infected rather than protecting uninfected people from acquiring infection. The typical mask you buy in the drug store is not really effective in keeping out virus, which is small enough to pass through the material. It might, however, provide some slight benefit in keep out gross droplets if someone coughs or sneezes on you. I do not recommend that you wear a mask, particularly since you are going to a very low risk location. Your instincts are correct, money is best spent on medical countermeasures such as diagnostics and vaccines.

Safe travels.

Best regards,

Tony
